

## QUICK & EASY DOLL HANGERS!

### Materials Needed:

Cardstock weight paper,  
Florist wire cut into 9 inch pieces  
for 1/3 SD size hangers  
and 8 inch pieces for 1/4  
MSD size hangers,  
Some adhesive: glue, double-  
sided tape, or a tape runner,  
Optional: stickers to decorate.

### Steps:

1. Trace the pattern onto the cardstock paper and cut out.
2. Fold along the fold lines for each hanger.
3. Fold the wire pieces in half and use pliers to tighten the bend. Then use the wires to form the top hook curve. At the base of the curve, hold the wire with the pliers and twist the two ends around each other to form about a 1/4 inch "stem," then separate the ends outward to match the sides of the fold lines on the cardstock pieces.
4. Lay the wire on the fold lines and fold the flaps over the wire.
5. Use adhesive to glue the sides down, sealing the wire inside.
6. Decorate with stickers of your choice!
