

These black & white images are from the Ella Flex Articulated Paper Doll Set and are provided so you can color in the spaces with your own color choices to experiment with different looks. The sleeve pattern can also be reversed.

This pattern set includes all the pieces for the color blocking along with the full pieces to line it. The full pieces can be cut from fusible interfacing and ironed to color blocked front Back, and sleeve pieces to seal & hide the raw edges from the color blocking.

The full pieces can also be used to sew a plain sheath style dress if you do not want to use the color blocking design.
